Natural Timber

Australian Owned

timeless...

General Characteristics

- Basswood does not warp
- Basswood is lightweight yet very strong
- Basswood has uniform grain for a beautiful stain finish
- Basswood is a renewable resource which is replenished as it is reharvested
- Basswood has superior gluing and finishing properties

Environmental Characteristics

Basswood is a renewable resource and careful hardwood forest management ensures free harvesting is done responsibly, balancing wood growth with timber removal. Each year the United States grows about twice as much hardwood as it harvests
